PRODUMEX
SCAN

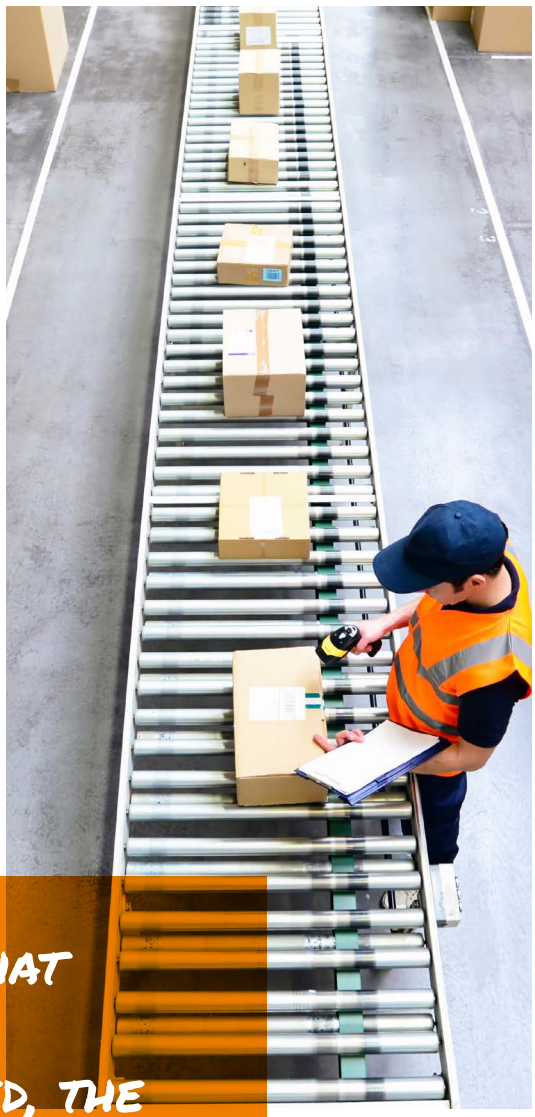
INCREASE WAREHOUSE VELOCITY WITH PRODUMEX SCAN

- FAST
- ACCURATE
- SIMPLE
- INTEGRATED
- ADAPTABLE

What can Produmex Scan do for your business?

Produmex Scan is a robust and reliable barcode scanning solution for SAP Business One that seamlessly automates warehouse and inventory transactions. The solution supports multiple warehouse operators, processing high volumes of transactions while maintaining high performance.

All major SAP Business One inventory transactions are supported in real-time including PO receipts, bin moves, lot/serial tracking, pick lists and deliveries, as well as Production Order transactions for the issue and receipt of stock. Produmex Scan also fully integrates with SAP Bins, Multiple Unit of Measure and Barcode/GTIN functionality.



"I like the visibility of what needs to be done on the handheld and, once scanned, the transaction is created in SAP immediately."

"We gained a lot of efficiency and eliminated the mistakes."

Bill Snelling, Distribution Manager, Kleiner Products

Solution targets

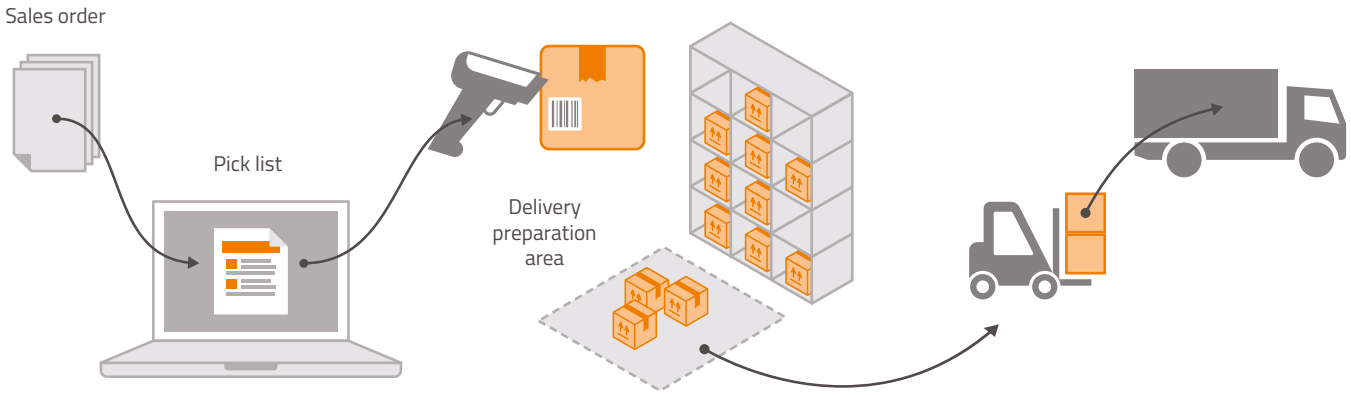
The majority of SAP Business One customers have a warehouse and stock that needs to be processed quickly and accurately. Produmex Scan is designed specifically for these requirements, whether dealing with dozens or hundreds of transactions.

The ideal customer is one requiring a solution that is very easy to implement and configure, and which sidesteps the complexities of larger logistics systems.

Produmex Scan's strength lies in simplicity versus complexity, providing easy to use functionality without compromising on performance.

Straightforward business processes are available out of the box, enabling customers to achieve a swift return on their investment, and SAP Business One tools can be used to adapt and customize data capture and processes as required.

Picking and shipping with Produmex Scan



1
Create pick lists for sales orders from SAP

2
Collect items from storage locations for shipping

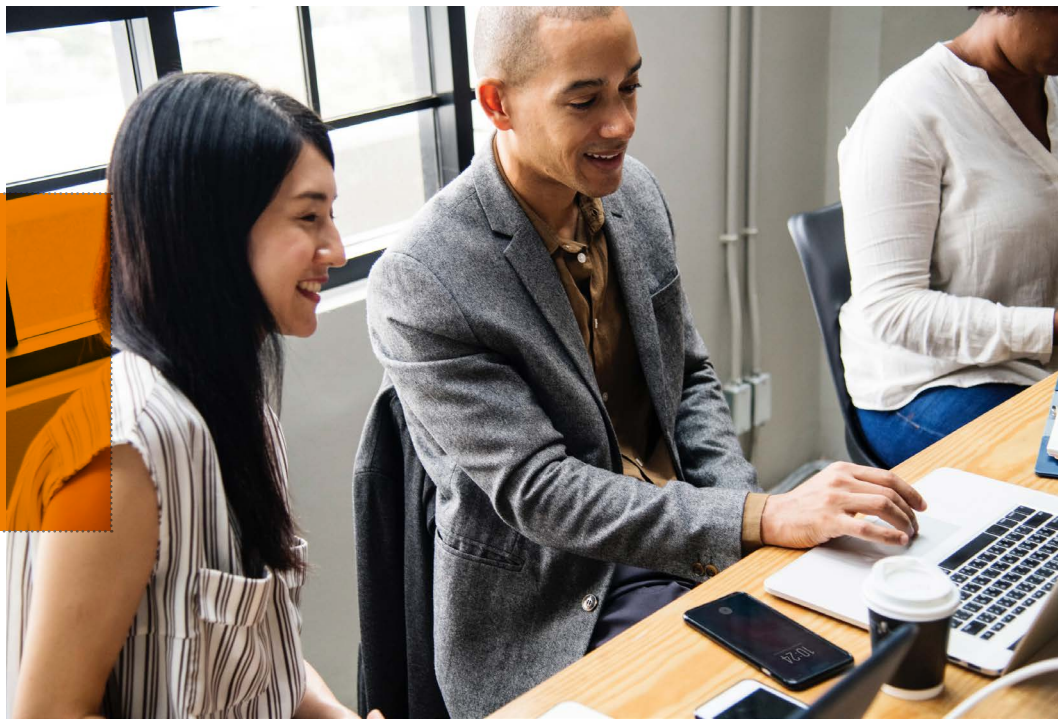
3
Load items into truck

Our customers

Over one hundred satisfied customers use Produmex Scan worldwide, many leveraging its out-of-the-box capabilities to get up and running quickly. Others use the SAP Business One-style customization tools to adapt it to cater for more complex data, process and labelling requirements.

Here are a few of our satisfied customers:

- A global Contract Manufacturer in Texas providing high quality services to their customers in bedding, home furnishings and performance apparel. Speed, accuracy and traceability of stock transactions are required in this demanding environment.
- An importer and distributor of Gourmet Italian Cuisine in the greater New York area leveraging real-time transaction processing and detail traceability to ensure that they process customers' orders quickly and accurately.
- An international group from Michigan efficiently creating, developing, manufacturing and distributing niche healthcare and consumer products using the benefits of barcoding to speed and process thousands of transactions seamlessly and accurately.



Solution capabilities

FULL SCOPE OF NATIVE SAP BUSINESS ONE DOCUMENTS

- Purchase Orders
- Sales Orders

- Stock Replenishments

COMPLIANCE

- Easily customize data capture to meet customer and industry compliance
- Use familiar tools to create and maintain labels, configuring to automatically print at the right time in the process.
- GS1 Scanning provides adherence to industry requirements

Key benefits

INCREASE PRODUCTIVITY

LEVERAGE BARCODE SCANNING TECHNOLOGY TO STREAMLINE ALL WAREHOUSE TRANSACTIONS

Scanning is 10 times faster than manual transactions. Processing more transactions with higher accuracy increases productivity in all areas of the warehouse.

INCREASE ACCURACY

BARCODE SCANNING DELIVERS GREATER ACCURACY THAN MANUAL TRANSACTIONS.

Easy processing of non-tracked as well as Batch and Serial transactions combined with SAP Bin Tracking help achieve near 100 percent inventory accuracy.

IMPROVE VISIBILITY

COMPLETE REAL-TIME INTEGRATION PROVIDES INSTANT VISIBILITY AND TRACEABILITY

Having one version of the inventory "truth" helps drive costs down and customer satisfaction up. Never guess again whether or not you have the stock or where it is located.

SIMPLE

REDUCE INVENTORY AND OPERATING COSTS

For the cost of a single fully integrated solution you get a full range of warehousing functionality that is easy to implement and easy to use. Better control through scanning can help reduce costs.

REDUCED ERRORS INCREASE CUSTOMER SATISFACTION.

Ease-of-use leads to fewer mistakes in picking and shipping and drives down shipping errors. Fewer shipping errors drives down costs and increases customer satisfaction

ADAPTABLE

QUICKLY AND EASILY TAILOR TO YOUR DATA AND PROCESS NEEDS

Using familiar SAP Business One tools you can readily adapt screens, labels and processing in your warehouse to meet your special requirements.

PROVEN IMPLEMENTATION METHODOLOGY

Superior documentation, training videos and unparalleled support make it possible for your SAP partner to get you up and running quickly – gaining the benefits of Produmex Scan in minimal time.

Functions

- Supports SAP Business One documents, warehouse, bins, UoM groups and branches
- Procure to Pay – purchase order and goods receipt
- Order to Cash – sales order, pick lists, deliveries and returns
- Manual and Automatic Replenishment – stock transfers and stock requests
- Production – issue to production and receipt from production
- Increase business profits by reducing obsolete inventory
- Correctly ship products and improving customer service levels
- Reduce product returns and lower the number of customer credit notes
- Significantly reduce paperwork and reduce data errors
- Lower the effort and time for picking while increasing labor productivity
